

Build with Confidence

The integration between PlanGrid and Egnyte lets users upload project plans directly from Egnyte to PlanGrid, as well as export plans, attachments, photos, and RFIs to Egnyte at the end of a project. The combined solution between PlanGrid and Egnyte allows users to create a digital archive of project asbuilts that can be shared owners and facilities management.

ONE MASTER SET

ALL-IN-ONE RFIS

ISSUE TRACKING MADE SIMPLE

ANNOTATE FROM THE FIELD

CONSTRUCTION'S EASIEST SOFTWARE

EFFICIENT FILE TRANSFERS BETWEEN PLATFORMS

- Easy file sharing at any point in the project
- Exportable asbuilts download directly to Egnyte

TRANSPARENCY AND DOCUMENT ACCESS

- Digital archive allows better project insights
- Users without PlanGrid accounts have access to important project documents

HOW IT WORKS

ABOUT EGNYTE CONNECTSM

Egnyte Connect provides Adaptive Enterprise File Services that uniquely anticipate IT and end-users' needs to securely, easily and intelligently share files on-premises and in the cloud. Egnyte is built on an open platform that integrates with any cloud, storage, device and business application to enable customers optimize their collaboration environments through secure access, centralized control and unified visibility.

ABOUT PLANGRID

PlanGrid is a mobile document management solution designed for use in the field. By working off of one master set that contains all notes, photos, RFIs, and issues, users have real time access to the most up-to-date project data, so no one is ever building off of outdated information.
